

Rescuing History: Nantucket in Response to Rising Seas

Nantucket Preservation Symposium • June 24-26, 2020

In 2020, NPT will present with *Rescuing History: Nantucket in Response to Rising Seas*, a Symposium focused on resiliency, but where we will shift from 2019's focus on raising awareness of the problem to looking at real-world strategies for adaptation that are being developed and implemented both nationally and on Nantucket. NPT is committed to assisting our community in developing resiliency while protecting the precious resource of our shared historic heritage. We hope you will consider joining us by supporting this valuable, educational conference as an Underwriter.
